Excellence in Research for Australia

ERA 2012
Flinders University
Christopher Marshall, ARC
22 November 2011
Objectives of ERA – that is, what ERA does

- Establish an evaluation framework that gives government, industry, business and the wider community assurance of the excellence of research conducted in Australia’s institutions;
- Provide a national stocktake of discipline-level areas of research strength and areas where there is opportunity for development in Australia’s higher education institutions;
- Identify excellence across the full spectrum of research performance;
- Identify emerging research areas and opportunities for further development;
- Allow for comparison of Australia’s research nationally and internationally for all discipline areas.
The ERA Unit of Evaluation

• **Baseline** - the Discipline in an institution = Four-digit Field of Research Code (ANZSRC) e.g. **1115** Pharmacology and Pharmaceutical Sciences

• **Higher perspective** – the division in an institution = Two-digit Field of Research Code (ANZSRC) e.g. **11** Medical and Health Sciences

• The ERA Unit is **not** about the department nor the individual researcher

Refinements for ERA 2012

• Journal articles with $\geq 66\%$ content in a discipline can be apportioned to that discipline
• Low volume threshold for peer review disciplines raised to 50 apportioned weighted outputs (maintaining 5:1 weighting for books)
• Fractional staff: minimum 40% appointment at ERA census date
• Eligibility of patents, plant breeder’s rights and registered designs extended to individuals
• Construction of the pool of outputs for peer review (30%)

*Please note that this is not based on any university's submission to ERA 2010*
ERA 2012 – still finalising

• Recruitment of Research Evaluation Committees (Chairs have been announced)

• Expansion of peer reviewer pool

• Submission and beyond!
Use of ERA results and the future

• **SRE** funding will have a performance component driven by ERA results – consultation is underway with the sector

• **RTS** funding to include an ERA-driven component – consultation underway, to be informed by Research Workforce Strategy

• **CRN** – Minister has said that ERA results will be used to drive some portion of CRN in the future

Consultation, consultation, consultation ......................
