3. Entire Agreement and Variation

3.1. This Agreement, including Schedules, the Proposal for each Project and the Funding Rules

constitutes the entire agreement between the parties and supersedes all communications, negotiations, arrangements and agreements, whether oral or written, between the parties with respect to the subject matter of this Agreement.

- 3.2. Notwithstanding clause 3.1, the Minister may at any time impose other requirements or conditions in connection with any Funding covered by this Agreement. - 4.3. The Funding Period for any project is indicative only of the intent of the Minister at the time of making the offer of Funding and is not binding on the Commonwealth. In the event that the Minister subsequently makes a determination under Section 54 of the Act to continue the Funding, this Agreement will continue to apply to any Project granted financial assistance under such a determination.

5. Payment of Funding

- 5.1. Subject to the provisions of the Act, the terms of this Agreement and sufficient program funding being available for the Scheme, the Commonwealth shall pay the Funds to the Administering Organisation for each Project in progressive monthly instalments in

- 16.3. Where the proposed arrangements include a transfer of the Funding from the Administering Organisation to another Eligible Organisation ('the recipient Eligible Organisation'), the Minister shall have regard to the circumstances surrounding the proposed transfer and may approve the transfer subject to such conditions as the Minister considers appropriate. If funding for a project which was previously administered by another Eligible Organisation is to be transferred to the Administering Organisation, the Administering Organisation must ensure that the project which is being transferred and the Specified Personnel performing the project satisfy the eligibility and accountability requirements of the Funding Rules and terms and conditions of this Agreement.

Responsibility for ensuring such clearances have been obtained remains with the Administering Organisation.
- 18.3. All parties involved in or associated with a Proposal and/or a Project are required to disclose to the ARC, and the other parties involved in the Proposal/Project, affiliations with, or financial involvement in, any organisation which has, or is likely to have, a direct interest in the subject matter or outputs of the Project. Such parties are required to disclose to the ARC at the time of submission of the Proposal, and in reporting on a Project, any conflict of interest which has the potential to influence, or appear to influence, the research and activities, publications and media reports, or requests for funding related to the Proposal/Project.

- 19.3. The Administering Organisation shall consider the benefits of depositing the data and any publications arising from each Project in an appropriate subject and/or institutional repository wherever such a repository is available. If the Administering Organisation is not intending to deposit the data from a Project in a repository either before, or within six months after, the completion of the Project the reasons for not doing so must be detailed in the Project's Final Report. ARC Learned Academies Special Projects 2008

Research special conditions

- B1. *Importation of Experimental Organisms:* The Administering Organisation must ensure that, before experimental organisms are imported into Australia for the purposes of a Project, the Administering Organisation or the LCI of the Project must obtain agreement in principle for the importation from the appropriate Commonwealth and State authorities.
- B2. *Research Involving Humans or Animals:* If any Project conducted by the Administering Organisation involves research on or involving humans or other animals, the Administering Organisation shall ensure that the codes adopted for these purposes by the National Health and Medical Research Council are complied with and that the Project may not commence without clearance from the Administering Organisation's Ethics or Biosafety Committee (or equivalent) and from any other relevant authority.
- B3. *Deposition of Biological Materials:* Any biological material accumulated during the course of a Project shall be transferred to an Australian body with statutory responsibility for control of such material. If no such body is available to take control of the biological material then the Administering Organisation shall dispose of the material in accordance with the Administering Organisation's established safeguards.
- B4. *Genetic Manipulation:* If a Project involves the preparation and/or use of recombinant nucleic acids constructed *in vitro* from sources that do not ordinarily recombine genetic information, approval in writing by the Administering Organisation's Biosafety Committee (or equivalent) or the Office of the Gene Technology Regulator (OGTR) must be obtained.
- B5. If a Project involves, or is concerned with the use of, recombinant DNA techniques, the Administering Organisation shall ensure that the principles and guidelines established and approved from time to time by the Australian Government's Recombinant DNA Monitoring Committee are observed.
- B6. If a Project involves or concerns the use of recombinant DNA techniques on animals or humans then, before the proposed research commences, the Administering Organisation shall ensure that the research has been approved by the relevant Ethics or Biosafety Committee (or equivalent) of the Administering Organisation. The Administering Organisation shall retain all Certificates relating to the above and will provide such evidence to the Scheme Coordinator if required to do so.
- B7. *Ionising Radiation:* If a Project involves the use of ionising radiation, the Administering Organisation shall ensure that any personnel performing procedures involving ionising radiation are appropriately trained and hold a relevant current licence from the appropriate State authority. The Administering Organisation shall retain all such licences and shall provide them to the Scheme Coordinator if required to do so.
- B8. *Social Science Data Sets:* Any digital data arising from a Project involving research relating to the social sciences should be lodged with the Australian Social Science Data Archive (ASSDA) for secondary use by other investigators. This should normally be done within two years of the conclusion of any fieldwork relating to the Project research. If a LCI is not intending to do so within the two-year period, he/she should include the reasons in the Project's Final Report.
