

# Summary of Linkage Infrastructure Applications for Funding to Commence in 2006

## New South Wales

### Australian Institute of Nuclear Science and Engineering (AINSE)

**LE0668044** Dr D Mather; Prof JW White; A/Prof EM Gray; Dr BJ Kennedy; A/Prof CE Buckley; Prof SJ Campbell; A/Prof LR Gahan; Dr R Robinson; Dr TJ Hicks; A/Prof EH Kisi

**Approved Project Title** Access for Australian Researchers to Advanced Neutron Beam Techniques

**2006 :** \$240,000

**Primary RFCD** 2402 THEORETICAL AND CONDENSED MATTER PHYSICS

#### Partner Organisation(s)

Australian Institute of Nuclear Science and Engineering (AINSE)

The Australian National University

Griffith University

The University of Sydney

Curtin University of Technology

The University of New South Wales

The University of Queensland

ANSTO

Monash University

The University of Newcastle

**Administering Institution** Australian Institute of Nuclear Science and Engineering (AINSE)

#### Project Summary

The access to ISIS is of strategic benefit to Australia. In the 'run up' to the Replacement Research Reactor that benefit will be increased because of the current upgrade to ISIS and the imminent construction of a second target station to provide the world's best 'cold neutron' facilities.
