# 1. Information to note regarding submission of reports

The Australian Research Council (ARC) requires that an End of Year Report (EoYR) be submitted for all active ARC projects.

The purpose of the EoYR is to collect information regarding the financial activity relating to ARC funding received during the 2022 calendar year and reconcile it against the ARC's records. The purpose of this Report is also to collect information regarding any significant issues affecting the progress of a Project during the 2022 calendar year, from an administrative perspective.

EoYRs are completed and submitted to the ARC by the Administering Organisation (AO), via the 'Research Office Project Management' module in Research Management System (RMS). The EoYR must be certified by the 'Research Office EoYR Delegate' before it can be submitted to the ARC.

All 2022 reports must be submitted in RMS by 31 March 2023. Extensions must be requested from and approved by the ARC Postaward team prior to this date.

It is the responsibility of each AO to ensure that the information contained in the Reports are accurate and that all required fields are comprehensively completed.

Report forms can be accessed in RMS by Research Office staff and ARC-approved EOY Delegates, relevant to their organisation.

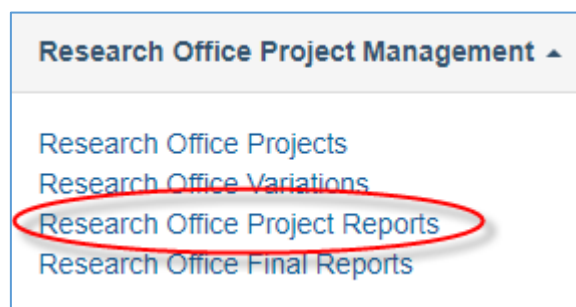

For any RMS access issues, please contact the ARC RMS Helpdesk at [ARCSystems@arc.gov.au](mailto:ARCSystems@arc.gov.au)

All requests for Administering Organisation EOY Delegate access must go through the ARC Post Award team at [ARC-Reports@arc.gov.au](mailto:ARC-Reports@arc.gov.au)

**Note:** RMS is compatible with the latest versions of Google Chrome and Microsoft Edge. Compatibility with different browsers or older versions of Google Chrome and Microsoft Edge is not guaranteed.

## 1.1 Accessing EoYR reports

- a) Login to [RMS](#).
- b) In the *Research Office Project Management* section of the *Action Centre*, click on 'Research Office Project Reports'.

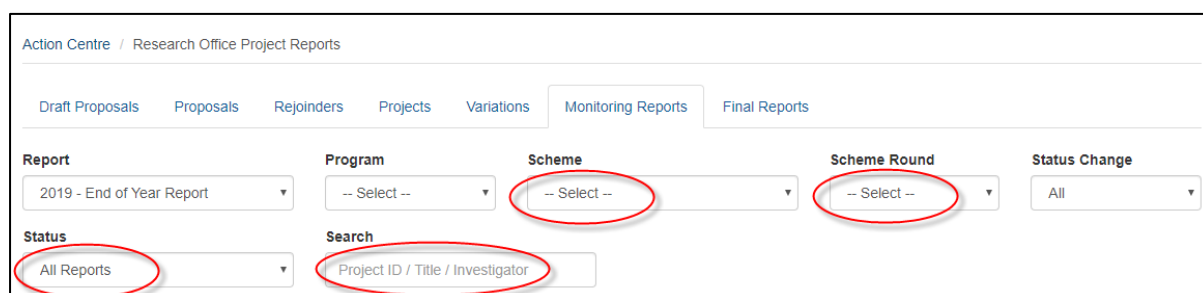

## 1.2 Searching for and editing Reports

Research Offices (ROs) can search for and edit reports for all Projects administered by their organisation during the 2022 calendar year that have a net value greater than \$0.

In the *Monitoring Reports* tab, reports can be searched by selecting the relevant EoYR round in the 'Report' dropdown list. Reports can then be searched by:

- using the relevant information under either the 'Program, Scheme and/or Scheme Round' dropdown lists
- searching for a specific Project ID, Title or Investigator under the 'Search' bar
- searching on the status of the Report/s under the 'Status' dropdown list.

The screenshot shows the 'Action Centre / Research Office Project Reports' interface. The 'Monitoring Reports' tab is selected. The search filters are as follows:

Report	Program	Scheme	Scheme Round	Status Change
2019 - End of Year Report	-- Select --	-- Select --	-- Select --	All

Below the filters, there are two more dropdowns: 'Status' (set to 'All Reports') and 'Search' (with the placeholder text 'Project ID / Title / Investigator'). Red circles highlight the 'Scheme', 'Scheme Round', 'Status', and 'Search' fields.

Once the relevant Report has been found it can be edited by selecting the 'Form' button, located on the furthest right for each Project's row.

Reports can also be searched for by inputting the Project Title, Project leader name or status using the universal search field on the top right of the screen in RMS.

## 1.3 Mandatory fields

- Several fields in the form are mandatory, and are required to be completed before the form can be certified and submitted to the ARC. These fields will be highlighted in red and/or a warning will occur when there is information missing. The required fields are: Part A – Amending Start and End Dates
- Part C – Reporting amount spent
- Part D – Unspent reason (if there is an unspent amount)
- Part E – Research Office Comments (if 'Other' is selected as unspent reason in Part D)

## Part G – Significant issues1.4 ARC Comments

A field has been added for 'ARC Comments', to enable RO and ARC staff to query any issues and provide instruction on any corrections required to approve the EoYR. Should the EoYR be desubmitted and returned to the Research Office, please refer to this section for comments from the ARC.

Please note that this field is only for ARC staff and RO comments should be entered in the 'Research Office Comments' section.

## 1.5 Saving the form

All changes to the form must be saved. Should a user attempt to navigate away from the page with unsaved changes, a prompt will appear on the browser. The 'Save' button can be found at the top right of the page.

## 1.6 End of Year Report status

The progress of an EoYR can be tracked by using its status, which can be found on the *Monitoring Reports* tab, as show below.

Research Offices can also filter all reports based on these status', by selecting the relevant 'Status' in the last drop for of the *Monitoring Reports* tab, as shown below.

The status and their meanings are as follows:

Status type	Explanation
<b>Draft</b>	Either nothing has been entered or not all mandatory fields have been completed
<b>Ready to Submit</b>	All mandatory information has been entered and the form is ready to be submitted to the EOY Delegate for certification
<b>Returned to Research Office</b>	The ARC has returned the form to the Research Office to be amended
<b>Submitted to RO EOY Delegate</b>	The form has been submitted to the EOY Delegate and is waiting to be certified
<b>Certified</b>	The RO EOY Delegate has certified the form and it is now ready to be submitted to the ARC
<b>Resubmitted to ARC</b>	The form has been resubmitted to the ARC and is ready to be reassessed
<b>Submitted to ARC</b>	The form has been submitted to the ARC and is ready to be assessed
<b>Accepted</b>	The ARC has assessed and accepted the form
<b>Waived</b>	The ARC has waived the requirement for this form

## 2. Completing EoYRs

### 2.1 Amending Start and End Dates (Part A)

*Mandatory field*

- a) Select 'Yes' or 'No' from the 'Has the start/end date changed' drop-down menus.
- b) If 'Yes' is selected, input the new date into the 'Amended Start/End Date' box.

**IMPORTANT:**

*If the project Start Date is within the allowable timeframe (as approved in the relevant Grant Agreement), updating the start date via the EoYR process is sufficient. However, if the start date is beyond this date, a Defer Commencement Variation will need to be submitted.*

*If updating the Start Date, please ensure the End Date is updated to maintain the project activity period.*

*The Project End Date is the estimated date that ongoing Projects will conclude or if the Project has already been completed, it is the actual date that research activity concludes*

*Please note: Dates cannot be amended for the following reasons:*

- *the start date cannot be before the intended date of funding commencement*
- *the start date cannot be changed into a future year, if spending has already commenced*
- *the end date cannot be changed into a future year, if all funds have been spent and there are no future allocations, or if a recovery has been requested in the EoYR*
- *the end date cannot be in a previous year if there are either a carryover reported, there are future allocations or if a recovery has been requested in the EoYR*
- *the end date cannot be changed to be beyond 3 years after the original allocation via the EoYR process, until it has reached the final year. Once the project has reached its final year, it can request an additional year, one year at a time*
- *if the project is already 3 or more years after the original allocation, the end date cannot be later than 31 Dec 2022*
- *if you are seeking an extension beyond the allowable timeframe due to COVID-19, it must be clearly identified in the EoYR*
- *if any of these changes are made, a warning will be displayed, and the form will not be able to be certified*

*Please take care to ensure eligibility limits are not breached when adjusting End Dates. Although the ARC will consider all End Date requests, if it is found that End Dates are significantly changed to circumvent eligibility rules, the ARC will decline these requests.*

### 2.2 Project allocations table (Part B)

The following information is auto-populated from RMS records.

Field	Explanation
2022 Allocations	The net income received by the Administering Organisation during pays made in 2022

Field	Explanation
2021 Carryover Amount	The approved EoYR carryover amount from 2021 to 2022. This will also include any approved variations processed in 2022(if relevant)
Total Amount Available	This is the sum of the '2022 Allocations' + '2021 Carryover Amount'
Total Amount Unspent	This is the carryover request from 2021 to 2022.

**IMPORTANT:** *This table is accurate as at completion of Pay 12. Any variations completed after Pay 12 will not update this table. If the 2021 Carryover Amount or Total Amount Unspent does not match the AO's financial acquittals, there may be a variation that was pending after Pay 12, or previous spending has been inaccurately reported. Please review the project's finances in RMS and advise of discrepancies to [ARC-Reports@arc.gov.au](mailto:ARC-Reports@arc.gov.au).*

## 2.3 Reporting the Amount Spent (Part C)

*Mandatory field*

- a) Enter the total amount spent in 2022 for the entire Project, including funds spent at Participating Organisations. The AO is responsible for reporting all ARC funding for Projects, regardless of the location of funds.

**IMPORTANT:** *The Administering Organisation is responsible for reporting all ARC funding for Projects, regardless of the location of funds. ARC funding is only to be reported as spent by the Administering Organisation if the funds are spent, including the funds located at other Organisations. Funds are not to be 'written off' because they are located outside the Administering Organisation. If this is done, it will be seen as committing a fraudulent act and may result in serious action taken by the ARC.*

*An amount that is less than \$0 or greater than the 'Total Allocations' displayed for the Project cannot be entered into this field. **The use of symbols such as \$, or comma's must not be entered into this field.** Only numbers may be entered into this field and a full stop to show the cents. For Major Investments only (ARC Centres of Excellence, Industrial Transformation Research Hubs and Training Centres and Special Research Initiatives) that have received Establishment Funds but have not yet commenced, you should put \$0 in the Amount Spent box and a comment in the Research Office Comment box that Establishment Funds used will be reflected in the next years' EoYR.*

## 2.4 Unspent Reason (Part D)

*Mandatory field*

To add a reason code:

- a) select the most appropriate code from the list provided  
b) click 'Add'.

To remove a reason code:

- a) select the 'x' button associated with the appropriate code.

**Please note** if the 'Other' reason code is selected, the Research Office Comments field will become mandatory and a reason must be entered.

**IMPORTANT:** *If there is any carryover requested (i.e. less than the full '2022 Total Allocations' have been spent), at least one 'Unspent Reason' Code must be selected (see table on following page). More than one 'Unspent Reason' code may be selected from the list provided. Reason codes let the ARC know why funding is being requested to be carried over into 2022.*

*Reporting on issues that affected the academic progress of the Project during the 2022 calendar year should be reported in the Progress Reporting section of the form.*

*If the Project's End Date has passed and funds remain unspent, only the 'Recovery' reason code should be selected, as a carryover cannot be requested after a Project has been completed. If a carryover needs to be requested, and the End Date has passed a new end date must be requested in the EoYR.*

***If there are changes that need to be made to the Project, entering in a Reason Code does not replace the need for a submission of Variation.***

The following unspent reasons can be found in RMS:

Reason code	Explanation
<b>Late Project start</b>	Project started late (e.g. due to late signing of agreement/s, ARC approved deferment, moved from overseas). Please do not use this for years 2 onwards unless the Project has not yet started (i.e. approved deferral)
<b>Late Student Start</b>	Late commencement of HDR/PGR Student funded directly from the grant
<b>Late Staff Start</b>	Late commencement of staff funded directly from the Project (that are not named participants or students)
<b>Leave/suspension</b>	Named participant/s on the project took a period of leave or suspension during the reporting period
<b>Withdrawal of named Investigator</b>	Withdrawal of named participants (CIs and PIs only)
<b>Student resigned</b>	Resignation of student funded by the Project
<b>Work Hours Change (salary position only)</b>	ARC approved change in work hours (% of FTE) for a position funded by the Project. A Variation should have been submitted to support this.

Reason code	Explanation
<b>Project Transfer</b>	Project transferred during the reporting period
<b>Investigator Organisation change</b>	Delays due to movement of named investigators (CIs and PIs only)
<b>Seasonal Fieldwork</b>	Seasonal nature of fieldwork (e.g. wet season, migratory practices, remote community access, natural disaster etc.)
<b>Equipment Issue/s</b>	Equipment Issues (e.g. breakdown of Project equipment, unavailability of new equipment causing delays, delay in new equipment being available from supplier, delay in construction of equipment)
<b>Late Invoicing</b>	Late invoicing for services or equipment that were not paid in the reporting period
<b>Task Rescheduling</b>	Rescheduling of tasks, resulting in expenditure being moved into the following year
<b>Other (must specify reason)</b>	If Other is chosen, a mandatory reason must be submitted. (Please provide details in the Research Office Comment field – <b>Part E</b> ).
<b>Recovery</b>	<p>A recovery occurs when unspent ARC funding is repaid to the ARC. When funds have not been spent and there is no approved carryover, ARC funding will be recovered. Please make sure to only include this reason if there are funds to be recovered by the ARC. Please make a reference to variation if a recovery has already been entered into RMS.</p> <p><b>IMPORTANT – The Research Office Comments section must confirm:</b></p> <ol style="list-style-type: none"> <li><b>1) The total expenditure by the AO on the project</b></li> <li><b>2) The total amount to be recovered by the ARC</b></li> </ol> <p><b>For projects with salary funding, a breakdown of spending against Project Funds and Salary is required.</b></p>
<b>Transfer Correction</b>	<p>When a project has been transferred from the AO and there is a balance remaining, this Reason Code should be selected.</p> <p>The total expenditure by the AO on the project should be confirmed including the balance to be sent to the new AO. A breakdown of spending against Project Funds and Salary is required for salary funded projects.</p>

Reason code	Explanation
	The ARC will contact the Research Offices of previous and current AOs for confirmation before accepting the EoYR.
<b>COVID-19</b>	The project was impacted by COVID-19, during the reporting period. It is expected that this option will be used in conjunction with another reason/s listed above. Please do not use this reason code as the sole reason.

## 2.5 Research Office Comments (Part E)

This field is mandatory if the 'Other' reason code is selected. This field should be used to respond to ARC Comments and communicate any additional administrative issues with the ARC. For example, if the project financials have been amended after Pay 12 has closed, it will not be reflected in RMS, this should be noted in the 'Research Office Comments' field.

## 2.6 Justification (Part F)

If the 'Total Amount Unspent' (carryover request) is more than 75% of the 2022 calendar year allocation or over 12 months (includes carryover from 2021) a mandatory 'Justification' must also be entered.

## 2.7 Completing Progress Reporting section (Part G)

This part of the report enables Progress Reports to be submitted to the ARC.

Were there any significant issues that affected the project during the past calendar year?

No

Project Issues

Add

### *Mandatory field*

This question will only have to be answered as 'Yes' if the Project's progress was affected during the 2022 calendar year and this was not already reported in a previous calendar year.

The Project issues selected should only relate to any research issues that affected the progress of the Project during the 2022 calendar year, this should not be a copy and paste from previous years. If the answer to this question is 'Yes', at least one 'Project Issue' must be selected from the dropdown menu provided.

**IMPORTANT:** *The project was impacted by COVID-19, during the reporting period, it's expected that this option will be used in conjunction with another reason/s listed above. Please do not use this reason code as the sole reason.*

To add a project issue reason code:

- a) select the most appropriate code from the list provided
- b) click 'Add'.

To remove a project issue reason code, select the 'x' button associated with the appropriate code.

**The following Project Issues can be selected from in RMS:**

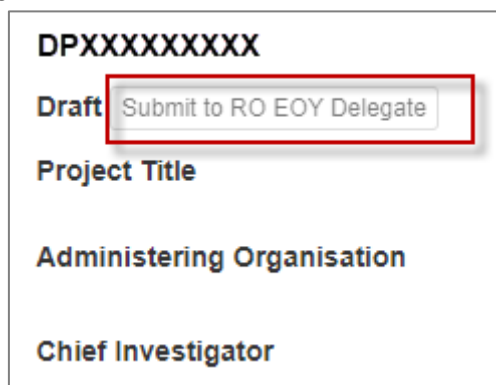

<b>Project Issues</b>
Approved change to work hours (% of FTE) for a named Investigator on the Project resulted in changes to the end date.
Issues with Partner Organisation such as: contributions not received, change in Partner investigator, change in Organisational structure, Organisation left the Project.
The scope/budget of the Project was altered to include/exclude tasks listed in the Proposal.
Equipment issues have delayed the Project during the reporting period
Fieldwork issues have caused a significant delay to the Project during the reporting period
Project was delayed as it was transferred during the reporting period and this significantly impacted the Project.
Due to personal reasons member/s of the research team had to take time off the Project to attend to personal health/carer matters (does not include support staff).
Changes within the research team such as Personnel left or joined the team (does not include support staff).
COVID-19

### 3. Certification and submission of reports

Once all required information has been entered, Research Office staff must submit reports to the EOY Delegate for assessment and certification. The EOY Delegate can then either de-submit the reports back to Research Office staff to make changes or certify and submit the report to the ARC for assessment.

All reports can be Submitted/Certified via two options.

- 1) Inside the report itself by selecting the button at the top left-hand side of the screen within the individual EoYR

DPXXXXXXXXX  
Draft   
Project Title  
Administering Organisation  
Chief Investigator

- 2) Using the Monitoring tab using the bulk submission options

**Bulk Submission**

#### 3.1 Certification and accuracy of information

EoYRs must be checked and certified by the Research Office EOY Delegate before they can be submitted to the ARC. Research Office EOY Delegates are required to certify that the Project has complied with the relevant schemes Funding Rules/Grant Guidelines and Funding/Grant Agreements and that all information provided within the report is accurate and up to date. Submission of this report must only be done by a person who has the financial delegation to do so on behalf of the AO, as this is a legal document that is being supplied to the ARC.

The 'Submitted to Research Office (Valid)' status will appear against each Report which is ready to be certified. Once certified, the status of the report will appear as 'Certified' and may then be submitted to the ARC by Research Office staff.

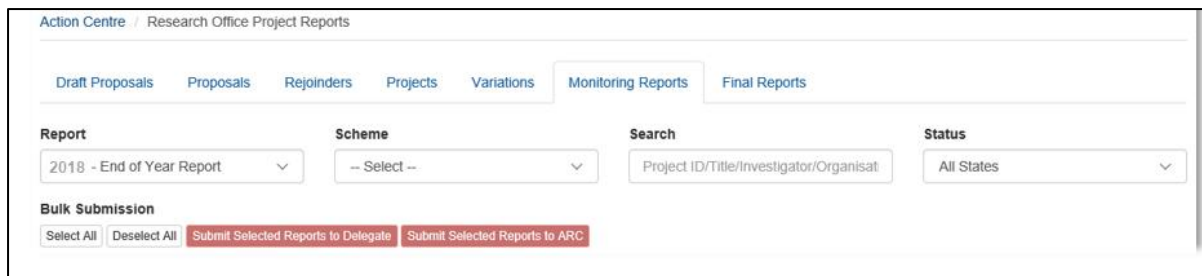

**Please note:** The Delegate cannot make changes to the reported information unless they have 'Research Office Staff' access in RMS. Having both access levels will allow the Delegate to enter/edit details in the report and submit directly to the ARC, without the need for de-submission.

**IMPORTANT:** Only staff approved by the ARC Post Award team to have EOY Delegate access will be granted this access in RMS. The ARC Helpdesk is not authorised to make these changes in RMS. If anyone is found to have this access in RMS without the relevant approvals, they will have their EOY Delegate access removed immediately.

The following prompt will appear once the 'Certify' button has been selected:

The EoYR Delegate must select the 'Agee to certification' for each EoYR before they can be submitted to the ARC.

## 4. Submission to the ARC

Action Centre / Research Office Project Reports

Draft Proposals Proposals Rejoinders Projects Variations Monitoring Reports Final Reports

Report: 2018 - End of Year Report

Scheme: -- Select --

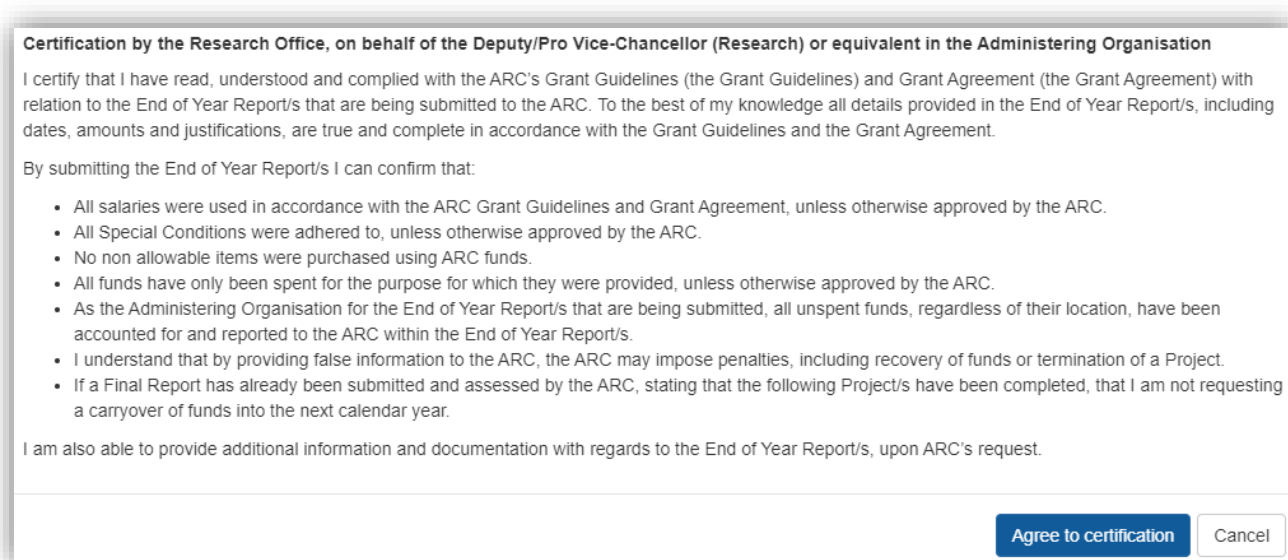

Search: Project ID/Title/Investigator/Organisat

Status: All States

**Bulk Submission**

Select All Deselect All Submit Selected Reports to Delegate Submit Selected Reports to ARC

Submission of EoYRs to the ARC can be submitted by the EOY Delegate or Research Office

**Certification by the Research Office, on behalf of the Deputy/Pro Vice-Chancellor (Research) or equivalent in the Administering Organisation**

I certify that I have read, understood and complied with the ARC's Grant Guidelines (the Grant Guidelines) and Grant Agreement (the Grant Agreement) with relation to the End of Year Report/s that are being submitted to the ARC. To the best of my knowledge all details provided in the End of Year Report/s, including dates, amounts and justifications, are true and complete in accordance with the Grant Guidelines and the Grant Agreement.

By submitting the End of Year Report/s I can confirm that:

- All salaries were used in accordance with the ARC Grant Guidelines and Grant Agreement, unless otherwise approved by the ARC.
- All Special Conditions were adhered to, unless otherwise approved by the ARC.
- No non allowable items were purchased using ARC funds.
- All funds have only been spent for the purpose for which they were provided, unless otherwise approved by the ARC.
- As the Administering Organisation for the End of Year Report/s that are being submitted, all unspent funds, regardless of their location, have been accounted for and reported to the ARC within the End of Year Report/s.
- I understand that by providing false information to the ARC, the ARC may impose penalties, including recovery of funds or termination of a Project.
- If a Final Report has already been submitted and assessed by the ARC, stating that the following Project/s have been completed, that I am not requesting a carryover of funds into the next calendar year.

I am also able to provide additional information and documentation with regards to the End of Year Report/s, upon ARC's request.

Agree to certification Cancel

staff with RMS access once Certified by the EOY Delegate and can be done in two ways:

- a) To submit individual/blocks of reports to the ARC, select the Project/s that are required to be submitted to the ARC and select 'Submit Selected Reports to ARC'.
- b) To submit reports in bulk, click the 'Select All' button and then select 'Submit Selected Reports to ARC'.

Please note that EoYRs can also be submitted to the EoYR Delegate and Certified within the Report itself.

**Draft** | Submit to RO EOY Delegate ← Ability to submit, certify and desubmit within the report

**Project Title**

**Administering Organisation**

**Chief Investigator**

<b>Start Date</b> 21/07/2014	<b>Has the start date changed?</b> <input type="text"/>	<b>Amended Start Date</b> <input type="text"/>
<ul style="list-style-type: none"><li>• This item must be answered</li></ul>		
<b>End Date</b> 31/12/2020	<b>Has the end date changed?</b> <input type="text"/>	<b>Amended End Date</b> <input type="text"/>
<ul style="list-style-type: none"><li>• This item must be answered</li></ul>		

Once submitted to the ARC, the progress of the EoYRs can then be tracked using its status in RMS.

## Frequently Asked Questions

### **Some information on screen maybe incorrect, how can this be adjusted?**

For any queries regarding the information on screen, please contact the Post Award team [ARC-Reports@arc.gov.au](mailto:ARC-Reports@arc.gov.au). Make sure to include the Project ID and the details of the issue.

### **What is a carryover?**

A carryover may occur when there is remaining ARC funding for a Project unspent in a calendar year. Funds may be made available to spend in the subsequent calendar year through the approval of a carryover request via the EoYR process. Funds not spent and not approved for a carryover may be recovered\* by the ARC.

*\*A recovery occurs when unspent ARC funding is repaid to the ARC. When funds have not been spent and there is no approved carryover, ARC funding will be recovered.*

### **How many years can a carryover be requested for?**

The ARC will normally only allow a carryover to be approved for up to three years after the original funding years, or equivalent years if a deferred commencement is approved by the ARC. Extensions will only be allowed beyond this if there are extenuating circumstances, such as an extended period of leave or suspension approved by the ARC.

### **Are the limits on Fellowships/Awards enforced by the ARC?**

Yes. The ARC will check to see if the Fellowship has been undertaken in the number of years allowed as per the ARC Agreement, plus any period of leave or suspension approved by the ARC. For example:

- DECRA - six years
- Future Fellowships (FT09-FT12) - six years
- Future Fellowships (FT13 onwards) – eight years
- Australian Laureate Fellowships - eight years

### **Does RMS show if an EoYR has been approved?**

The status of the EoYR will appear as “Accepted” in RMS.

### **How will I know when an EoYR has been approved?**

RMS allows Research Office staff to subscribe to notifications, including status changes, such as approvals, for EoYRs.

### **What circumstances might cause a carryover request to be rejected?**

Projects that have been completed, terminated or relinquished cannot carryover any unspent funding. Funds can also not be carried over if the Final Report has been submitted (which certifies/confirms the completion of the project) or if the ARC has not approved the Project to go over the allowable timeframe (as listed above).

### **Can carryover funds be spent before the ARC has approved it?**

Yes. The ARC will allow funds to continue being spent, however it is the responsibility of the Administering Organisation to ensure that by doing so, the Project has not gone beyond the allowable timeframe (as listed above). If the ARC has already provided advice to say that the

project must come to an end, any funds spent beyond this date is the responsibility of the Administering Organisation.

**What if the ARC approved a deferment of commencement? Does this change when the limits are calculated?**

The number of active years is calculated based on the ARC approved start date in RMS. If there has been an ARC approved deferment of commencement, the ARC will calculate the number of years the project has been active from that date.

**Can additional information be included in the EoYR?**

There is an optional Research Office Comments field in every EoYR. This field is limited to 250 characters and should contain notes from the Research Office to ARC staff only. Variations cannot be submitted through this field, but the Research Office staff may indicate that a variation is to be or has been submitted.

**What if there was an overspend on the Project?**

The ARC will not reimburse overspends and the funding should be reported as fully expended in the EoYR. RMS will not accept negative figures.

**Can the University salary contributions be charged to the ARC Project and then the University just pay the difference in the final years?**

No. This is a breach of the ARC Agreement and will be treated as fraudulent activity if it is found that the Administering Organisation has not acquitted the salary correctly. Any Administering Organisation found to undertake this practise risks losing the funds for these projects.

**When should salaries be acquitted?**

Salaries should be acquitted each year. It is the responsibility of the Administering Organisation to ensure funds are accurately expended and acquitted each year and this activity is not withheld until the end of the Fellowship/Award/Project.

**When does a Progress Report by exception need to be submitted?**

If no additional changes or administrative issues have affected the Project than those already reported to the ARC, then a report does not need to be submitted and 'no' should be selected. If changes are made to the project without the ARC approving a Variation, then a report will need to be submitted.

Example:

If a Project has been approved by the ARC to be transferred and the Project was able to be resumed at the new Administering Organisation within the originated timeline expected, then the first question may be answered as 'no'.

However, if the approved transfer resulted in unexpected delays that significantly affected the Project's progress, then the first question should be answered 'yes'.

**Who can submit to the ARC?**

Those with Research Office Staff role access in RMS can edit, save information and can submit EoYRs to the ARC once they have been certified by the EOY Delegate. Only EOY

Delegates can certify EoYRs. If an EOY Delegate has both access levels, they can enter details into RMS and submit directly to the ARC.

A maximum of two EOY Report Delegates should have been nominated from each Administering Organisation. Each Delegate **must** have the appropriate financial/legal delegation within their University to certify the reports and cannot be granted to a lower level staff member. If the EoYR Delegates needs to be updated for the Administering Organisation, please contact the ARC ([ARC-Reports@arc.gov.au](mailto:ARC-Reports@arc.gov.au)). The ARC has the right to not accept a nomination for an EOY Delegate if we believe that the person does not have the appropriate delegate authority.

#### **What if a Project finished in 2022, does an EoYR still need to be completed?**

An EoYR must still be completed for any Projects that were completed in 2022 if any funds were spent in 2022 (including any carryover from 2021) or retained at the Administering Organisation.

If the Project has any ARC funds to be recovered, select reason code 'Recovery' and include a comment noting that the Variation request has been or will be sent to the ARC.

#### **What if a Project was transferred in 2022, does an EoYR still need to be completed?**

An EoYR must still be completed if any funding was reported as spent in 2022 in the transfer documentation.

Enter the 2022 expenditure in the 'Amount Spent' field, select reason code 'Project Transfer' and include a comment noting that the Variation request has been approved by the ARC.

#### **What if there is a mistake in the EoYR and it needs to be changed?**

Email [ARC-Reports@arc.gov.au](mailto:ARC-Reports@arc.gov.au) to request a report be de-submitted back to the Research Office. However, if the Report has been accepted by the ARC, the change will have to be made manually outside of the EoYR application. Any issues from previous years' reports may also be able to be fixed manually but must be done directly through the Post Award team ([ARC-Reports@arc.gov.au](mailto:ARC-Reports@arc.gov.au)) via a Variation request as per the ARC *Research Office instructions for completing and submitting a Variation and/or POACR*, available on the ARC website.
