1. Introduction

The Australian Research Council (ARC) Board, as the accountable authority of the ARC, has established the ARC Audit and Risk Committee (Committee) in compliance with section 45 of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act) and section 17 of the *Public Governance, Performance and Accountability Rule* (PGPA Rule).

This Charter sets out the role, authority, functions, responsibilities and administration of the Committee and encompasses its terms of reference. It is based on the Department of Finance's (Finance) model audit committee charter and aligns with the Resource Management Guide 202 – *A guide for non-corporate Commonwealth entities on the role of audit committees*.

Under Subsection 17(1) of the PGPA Rule, the accountable authority of a Commonwealth entity must determine the functions of the entity's audit committee by written charter.

These functions must include reviewing the appropriateness of the accountable authority's:

- (a) financial reporting,
- (b) performance reporting,
- (c) system of risk oversight and management, and
- (d) system of internal control, for the entity (subsection 17(2) of the PGPA Rule).

2. Audit and Risk Committee functions

2.1 Financial reporting

The PGPA Rule requires that the Committee review the appropriateness of the accountable authority's financial reporting for the entity (subsection 17(2)(a)). This entails the Committee reviewing compliance with the mandatory requirements of the PGPA Act, the PGPA Rule, the Accounting Standards and considering advice given in supporting guidance.

2.1.1 The Committee will review and provide advice to the Board on the appropriateness of the ARC's:

- (a) annual financial statements
- (b) information (other than annual financial statements) requested by Finance in preparing the Australian Government's consolidated financial statements, including the supplementary reporting package
- (c) processes and systems for preparing financial reporting information
- (d) financial record keeping
- (e) processes in place to allow the ARC to stay informed throughout the year of any changes or additional requirements in relation to the financial reporting.

2.1.2 Financial reporting deliverables

The Committee will provide a statement to the Board advising:

- (a) whether the annual financial statements, in the Committee's view, comply with the PGPA Act, the PGPA Rule, the Accounting Standards and supporting guidance

- (b) whether additional entity information (other than financial statements) required by Finance for the purpose of preparing the Australian Government consolidated financial statements (including the supplementary reporting package) comply with the PGPA Act, the PGPA Rule, the Accounting Standards and supporting guidance, and
- (c) the appropriateness of the ARC's overall financial reporting, with reference to any specific areas of concern or suggestions for improvement.

2.2 Performance reporting

The PGPA Rule requires that the Committee review the appropriateness of the accountable authority's performance reporting for the entity (subsection 17(2)(b)). This entails the Committee reviewing the mandatory requirements of the PGPA Act, the PGPA Rule, the Commonwealth performance framework and considering advice given in supporting guidance. The review would include information provided in the Corporate Plan, the Portfolio Budget Statements, and the Annual Performance Statements.

2.2.1 The Committee will review and provide advice to the Board on the appropriateness of the ARC's:

- (a) Systems and procedures for assessing, monitoring and reporting on the ARC's performance. In particular, the Committee can satisfy itself that the ARC's:
 - i. Portfolio Budget Statements and Corporate Plan include the purpose of the ARC, its key activities, the operating context and details of how the ARC's performance will be measured and assessed
 - ii. Approach to measuring its performance throughout the financial year against the performance measures included in its Portfolio Budget Statements and Corporate Plan is appropriate and in accordance with the Commonwealth performance framework. This may include periodically reviewing elements of the performance measures
 - iii. Systems and processes are appropriate for the preparation of its Annual Performance Statements and inclusion of the statements in its annual report.
- (b) Annual Performance Statements and their appropriateness to the ARC.

2.2.2 Performance reporting deliverables

The Committee will provide the Board with a statement to advise whether, in their view, the ARC's Annual Performance Statements, performance reporting and compliance with the PGPA Act and the PGPA Rule are appropriate, with reference to any specific areas of concern or suggestions for improvement.

2.3 Risk oversight and management

The PGPA Rule requires that the Committee review the appropriateness of the accountable authority's system of risk oversight and management for the entity (subsection 17(2)(c)). This requires the Committee to gain sufficient understanding of the ARC Board's risk appetite and the ARC's operating environment, and review the mandatory requirements of the PGPA Act, the PGPA Rule, the *Commonwealth Risk Management Policy* and consider advice in supporting guidance.

2.3.1 The Committee will review and provide advice to the Board on the appropriateness of the ARC's:

- (a) enterprise risk management policy framework and the necessary internal controls for the effective identification and management of the entity's risks, in keeping with the *Commonwealth Risk Management Policy*

- (b) approach to managing the ARC's key risks—including those associated with individual projects and program implementation and activities
- (c) process for developing and implementing the ARC's fraud and corruption control arrangements consistent with the *Commonwealth Fraud and Corruption Control Framework*, and satisfy itself that the ARC has adequate processes for detecting and effectively responding to fraud and corruption risks, and
- (d) articulation of key roles and responsibilities relating to risk management and adherence to them by officials of the ARC.

2.3.2 Risk management deliverables

The Committee will:

- (a) provide a statement to the Board on whether, in their view, the ARC's system of risk oversight and management is appropriate with reference to the *Commonwealth Risk Management Policy* and any specific areas of concern or suggestions for improvement
- (b) at least annually, commission an ARC-wide assurance map that identifies the ARC's key assurance arrangements.

2.4 Internal control

The PGPA Rule requires that the Committee review the appropriateness of the accountable authority's system of internal control for the entity (subsection 17(2)(d)). This entails the Committee gaining a sufficient understanding of the ARC's operating context, governance requirements, and reviewing the mandatory requirements of the PGPA Act, the PGPA Rule as well as considering advice in supporting guidance.

The Committee will review and provide advice to the Board on the appropriateness of the ARC's:

2.4.1 Internal control framework

- (a) reviewing management's approach to maintaining an effective internal control framework and whether appropriate processes are in place for assessing whether key policies and procedures are complied with
- (b) reviewing whether management has in operation relevant policies and procedures—such as Accountable Authority's instructions, delegations, a business continuity management plan, or bullying and harassment policies.

2.4.2 Legislative and policy compliance

- (a) reviewing the effectiveness of systems for monitoring the ARC's compliance with laws, including the ARC's specific legislative requirements, regulations, and associated government policies with which the ARC must comply
- (b) determining whether management has adequately considered legal and compliance risks as part of the ARC's enterprise risk management framework, fraud and corruption control framework and planning.

2.4.3 Security compliance

- (a) reviewing management's approach to maintaining an effective internal security system, including complying with the Protective Security Policy Framework and the ARC's ICT security policy.

2.4.4 Internal audit coverage

- (a) reviewing the proposed internal audit coverage, ensuring that the coverage considers the ARC's primary risks, and recommending approval of the internal audit work plan by the Board
- (b) reviewing all internal audit reports, providing advice to the Board on major concerns identified in those reports, and recommending action on significant matters raised, including identification and dissemination of information on good practice.

2.4.5 Internal control deliverables

- (a) The Committee will provide a statement to the Board about whether the ARC's system of internal control is appropriate, with reference to any specific areas of concern or suggestions for improvement.

3. Additional functions of the Audit and Risk Committee

3.1 Business continuity

- (a) the Committee should satisfy itself that an appropriate approach has been taken in establishing business continuity planning arrangements, including whether business continuity and disaster recovery plans have been periodically updated and tested.

3.2 Ethical and lawful conduct

- (a) the Committee should assess whether the ARC has taken steps to embed a culture that promotes the proper use and management of public resources and is committed to ethical and lawful conduct.

3.3 Parliamentary committee reports, external reviews and evaluations

- (a) the Committee should satisfy itself that the ARC has appropriate mechanisms for reviewing relevant external reports (including parliamentary committee reports), external reviews and evaluations of the entity and implementing, where appropriate, any resultant recommendations.

4. Conduct of the Audit and Risk Committee
